

## NETRUST PTE LTD ("NETRUST") CERTIFICATE POLICY NETRUST CORPORATE NET ID CERTIFICATE (POLICY OID: 1.2.702.0.1002.6.4)

### 1. Introduction

The Certificate Policy (CP) is a named set of rules that indicate the applicability of a certificate to a particular community and/or class of applications with common security requirements and is further supported by the Netrust Certification Practice Statement ("CPS").

When Netrust issues a certificate, it is making a statement that the certificate is associated with the person or equipment uniquely named within that certificate. The process of issuance of any class of certificates is guided by the relevant CP and the CPS. The Subscriber should assess his own requirements when relying on a particular Netrust Certificate, taking into consideration the CP applicable to that Netrust Certificate, together with the CPS.

This CP is applicable to the class of Netrust Corporate NetID Certificate ("NCNC").

### 2. Certificate Profile

NCNC issued under this CP shall contain the following information. Additional information may be included as necessary.

Field	Content
1. Issuer Distinguished Name	The Issuer Distinguished Name should contain the following fields.

5.1. Policy Identifier	1.2.702.0.1002.6.4

### **3. Characteristics**

#### **A. Registration**

Registration of the NCNC will be based on the Organisation Registration Authority ("ORA") adopting a "Face-to-Face" registration process of the Subscriber together with the relevant identification documents in accordance with Clause 4.1 of the CPS.

#### **B. Issuance**

Issuance of the NCNC will be based on the ORA providing a set of unique registration information to allow the Subscriber to generate a set of unique keys and Certificate in accordance with Clause 4.2 of the CPS.

Acceptance of the NCNC will be based on the ORA implicitly accepting a profile that contains the Subscriber's private signing key and decryption key, public verification and encryption certificates and the Netrust CA public verification certificate.

#### **C. Storage & Escrow**

The Subscriber's private keys associated with the NCNC must be stored in an appropriate medium on pc storage device, usb drive, memory cards or crypto devices. The Subscriber must be aware that private keys stored on a less secure medium may not provide the desired level of assurance.

With the NCNC, the Netrust PCS only has provision to perform key escrow for private encryption key.

### **4. Applicability and Suitability**

NCNC is intended for use in applications requiring strong authentication, message integrity, digital signature and confidentiality features such as secure electronic commerce, secure bank related activities and secure government services.

### **5. Loss and Replacement**

In the event of loss of the NCNC token, the Subscriber must personally report to Netrust or Sponsor ORA. The replacement process will be similar to the initial registration process.

### **6. Validity and Expiry**

NCNC will have a default life span of up to three (3) years with automatic renewal subject to the payment of annual renewal fees.

### **7. Renewal**

Upon expiry, the Subscriber will have to obtain a new set of keys and certificate either through an automatic or manual renewal process.

## 8. Obligations

The Netrust CPS sets out the obligations to be performed by Netrust, the Organisation Registration Authorities, the Sponsors, the Subscribers and the Relying Parties and all such provisions must be read and understood by all parties and shall be deemed to be incorporated herein by reference.

## 9. Disclaimers

- 9.1 Netrust shall not be liable for any loss or damage whatsoever, including but not limited to direct, compensatory, indirect, special, consequential, exemplary or incidental damages incurred by any person howsoever arising directly or indirectly, including but not limited to contract, tort and any other form of liability claims, in connection with the use or reliance on any certificates by any parties. Unless otherwise expressly stated in this CP, Netrust does not warrant that any materials, documents, software, products or any certificates supplied or provided by Netrust will be error-free and all statements, conditions or warranties, express or implied, statutory or otherwise, as to the quality, merchantability, or suitability or fitness for any particular purpose of any such materials, documents, software, products or any certificates thereto is hereby excluded.
- 9.2 In the event that any limitation or provision contained in this Agreement is held to be invalid for any reason and Netrust becomes liable for loss or damage that would otherwise have been excluded hereunder or excludable in law, Netrust's total liability shall be limited to the aggregate amount of its liability under any insurance policies that it subscribes to for each certificate as set out below and as may be further and/or subsequently amended by Netrust.

Certificate Class	Liability Cap
NCNC	Singapore Dollars Eighty Thousand (S\$80,000.00) Only
